**Subject:** Cadiere has passed 30 SSUs!!!

Hello all,

I wanted to inform the team that the low cap grip rod Cadiere has officially passed its final performance measurement post SSU 30! A big congrats to the NPV team for all of their hard work with life testing SSUs and the instrument team for creating and manufacturing a robust design to get our SP instruments to 20+ lives! We still have some ongoing monopolar instrument testing, but this is a major accomplishment for the Ducati program.

The completion of this testing now clears the pathway for updating our documentation and finalizing our number of programed lives for PPQ for the 5 instruments below.

Cadiere – 22 lives  
 Needle Driver – 22 lives  
 Clip Applier – 150 fires  
 Maryland Bipolar – 20 lives  
 Fenestrated Bipolar – 20 lives

Below is a list of some of the documentation that I am aware of that will need updating.

UNITED STATES DISTRICT COURT NORTHERN DISTRICT OF CALIFORNIA
<b>TRIAL EXHIBIT 933-R</b>
Case No. <u>3:21-cv-03496-AMO</u>
Date Entered <u>                    </u>
By <u>                    </u>
Deputy Clerk

- **Jenacyn/Joe F.** – Update marketing forecast and pricing
- **Bill Park** – Update parameter matrix
- **Melanie Demers** – Update user manuals
- **Elaine** – Create [REDACTED] for increased number of lives and minor design changes for instruments
- **Peter Russo** – Update manufacturing documents that are needed

Please let me know if there are other documents that will need updating to reflect our final number of lives for launch.

Thanks,

**Sumona Adhya**
